

LIGHTING DESIGN

LUZION[®]

DESIGN APPROACH

1

We accentuate architectural details using dynamic, energy-efficient lighting.

2

Our designs balance aesthetics and functionality while supporting sustainability goals.

3

Every project receives a personalized approach, aligned to your brand and building context.

SCOPE OF WORK

01	02	03	04
• Site analysis and architectural interpretation →	• Creative concept development →	• Advance lighting simulations and visualization →	• Fixture selection and detailed technical documentation →
05	06		
• Coordinating with architects, consultants →	• Supervision during installation and commissioning →		

PROJECT PROCESS

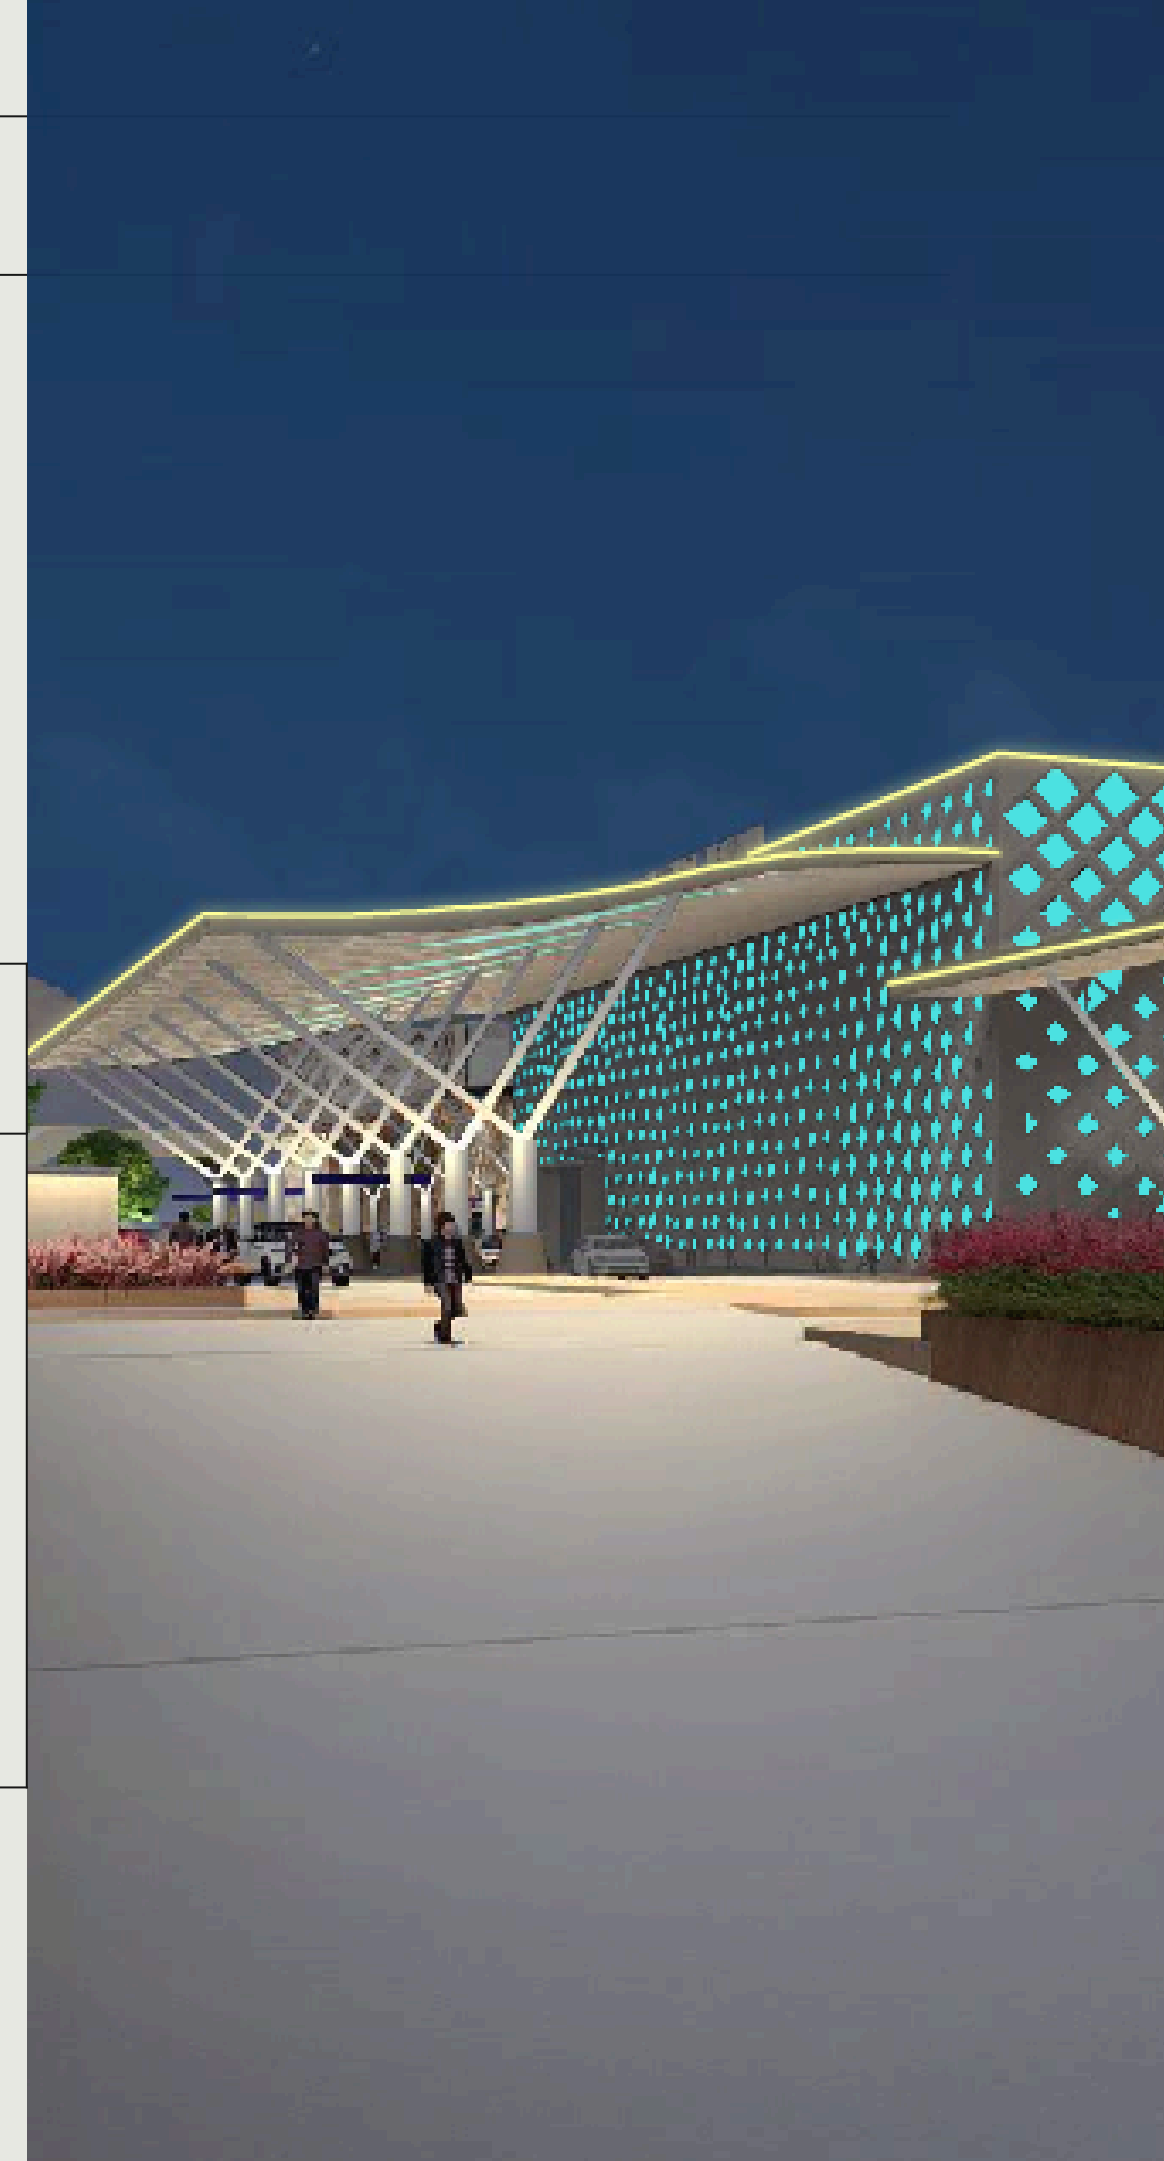

TOTAL DURATION - 5 WEEKS

01	02	03	04
• Consultation and site survey ➔ 0-1 WEEK	• Design concept generation ➔ 1-2 WEEK	• 3D visualization ➔ 2-3 WEEK	• Final design documentation ➔ 3-5 WEEK
05			
• Installation support and final adjustment ➔			

KEY DELIVERABLES

DELIVERABLES

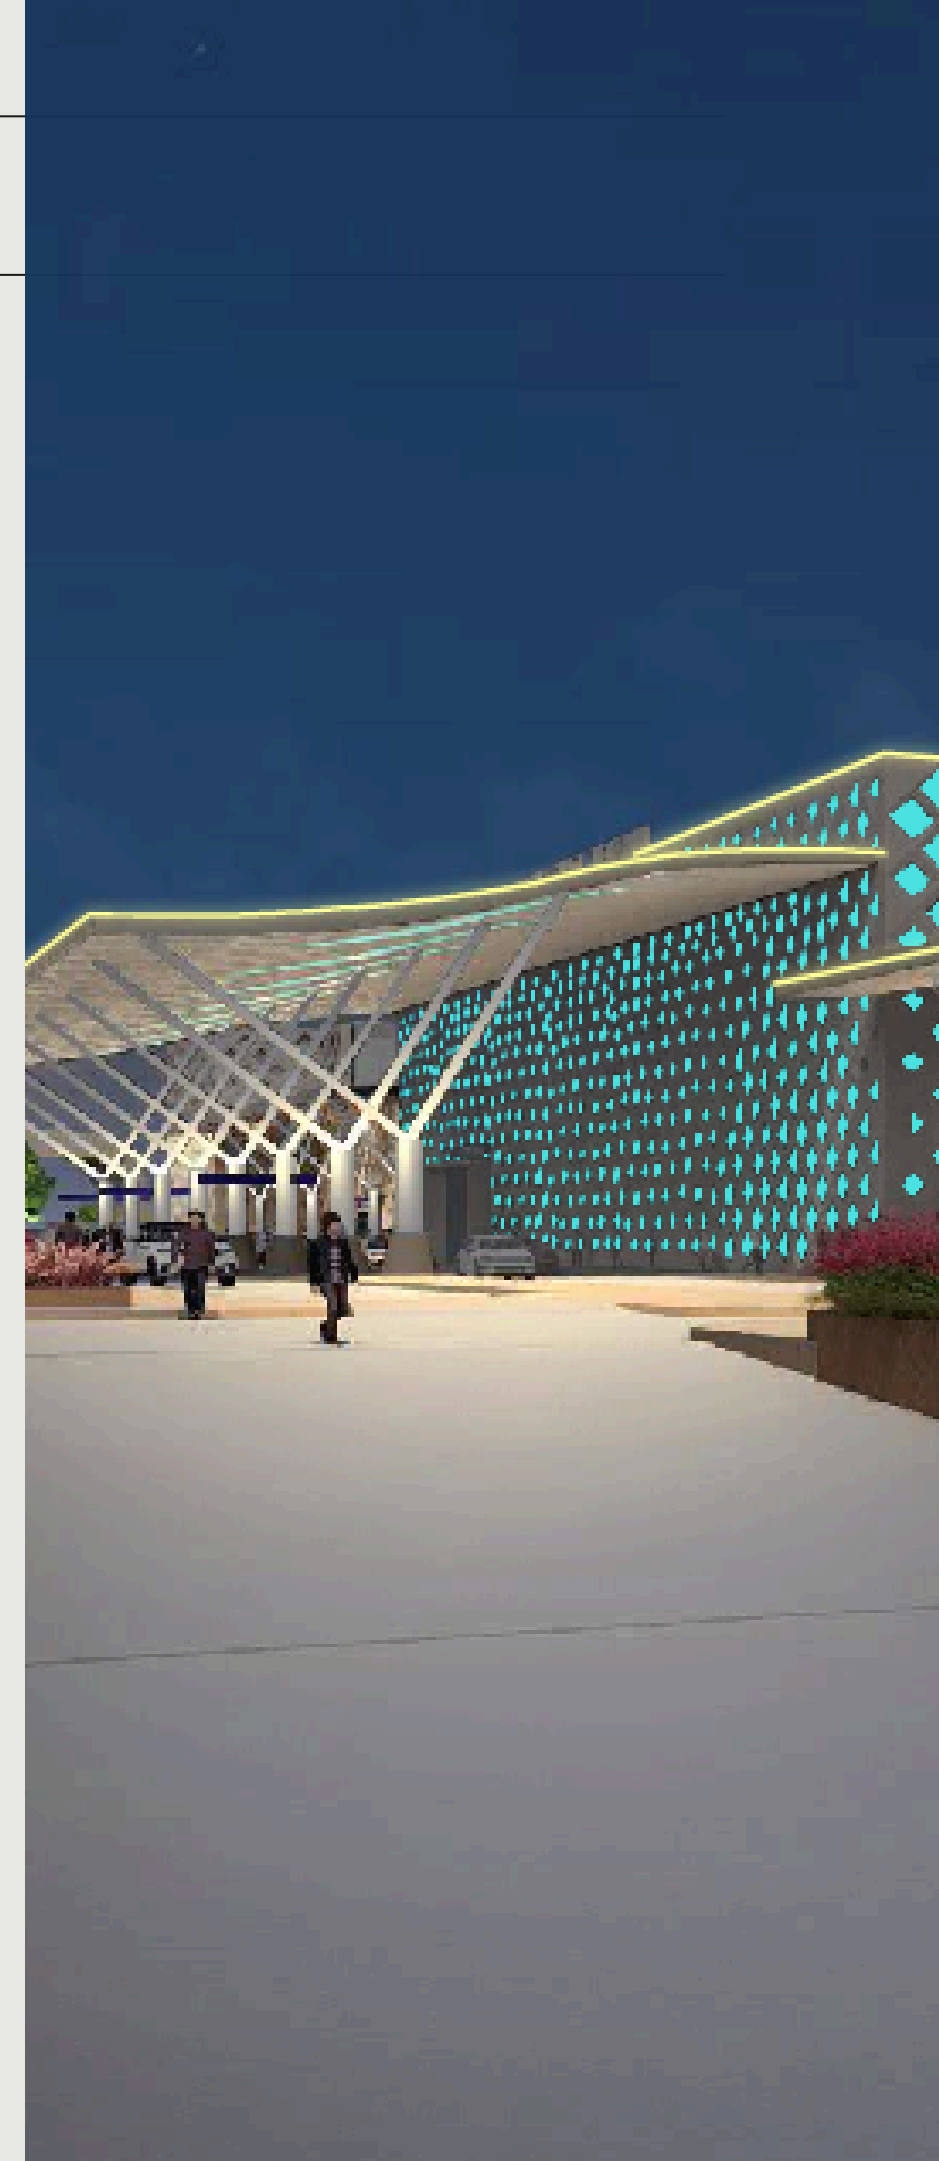

- Mood boards and initial lighting concepts
- Photometric simulation reports
- Detailed lighting layout drawings
- Fixture specifications and control plans
- Energy efficiency and sustainability reports
- All deliverables are presented with photorealistic visuals to aid decision-making.

CLIENT REQUIREMENTS

DOCUMENTS NEEDED

- Architectural drawings (3D Render, plans, elevations, sections)
- Site photographs—day and night
- Your preferred materials and visual style
- Details of project objectives, timeline, and budget
- Infrastructure/Electrical Points/Power availability
